

TAG QUARTERLY PROGRESS REPORT

Date: February 15, 2018
Report Number: 106
Report Period: October-December 2018
Site: **Montana Pole and Treatment Plant**
Grant Recipient: Citizens Technical Environmental Committee (CTEC)
Technical Advisors: KirK Engineering & Natural Resources, Inc.

PROGRESS ACHIEVED

- . CTEC – Presentation on Potential for fungal Bioremediation of Butte Pole Yard Dioxin Contamination. Cliff Bradley and Ian Magruder.
- . Health monitoring public meeting working group meetings and public meeting. Steve Ackerlund – CTEC Technical Advisor.
- . Facilitated a public Health Monitoring/INBRE Gap Perceptions of environmental Health in Butte. October 30, 2018.
- . Continued to work on NIH/INBRE Grant CTEC/Mt Tech: Bridging the Gap: Evaluating Environmental Health Risk Perceptions for Better Community Engagement with Mt Tech. CTEC board helped sort through superfund documents for the last 34 years.
- . Attended the Upper Silver Bow Creek Corridor Community Design Workshops. November 1, 2018.
- . CTEC sponsored a pavilion at the Butte Farmer's Market inviting other local environmental entities June - October.
- . Sponsored 3 meetings open to the public.
- . Provided technical assistance to 40 members of the public at CTEC office.

CTEC Board of Directors Meeting (all board meetings are open to the public)

- . Mt Pole – Cliff Bradley guest October 2, 2018
- . Public Health Meeting – October 30, 2018.
- . Climate Change and Superfund – Dave Williams – December 11, 2018.

CTEC Public Presentations/ Events

- . BSB Health Monitoring Meeting. October 30, 2018. Steve Ackerlund, Raja Nagasetti and Bill Macgregor.
- . Climate Change and Superfund – Dave Williams – December 11, 2018.
- . Farmers Market pavilion June – October. CTEC board and guests answering questions and listening to concerns from the public.
- . "Worth the Wait - 30 Year Cleanup of One of the Nation's Largest Superfund Sites" CTEC Office.
- . KBMF Butte America Radio.org. Superfund reporter –David Hutchins – CTEC Board Member. Superfund 101 - CTEC board members interviews.

Non-CTEC meetings/tours attended by CTEC staff and/or Board:

- . Medical Monitoring Working Group – October 2, 2018
- . Butte Upper Silver Bow Creek Corridor Community Design Workshops. November 2018.
- . Butte Natural Resource Damage Restoration Council. November 15 and December 13, 2018.
- . Restore Our Creek meetings.
- . University of Mt - MT Tech Remediation/Restoration Seminar Series.
- . Butte-Silver Bow-Butte Superfund Advisory Redevelopment Trust Committee Meetings (SARTA).
- . Citizens for Labor and Environmental Justice Meetings (CLEJ).

Documents Reviewed and/or comments provided:

- . Reviewed Superfund documents published for the last 34 years for INBRE grant.
- . Health monitoring meeting summary, October 30, 2018 – Steve Ackerlund. CTEC Technical Advisor.
- . Other documents were reviewed at varying levels by CTEC board members or advisors when they were received.

DIFFICULTIES ENCOUNTERED:

- . Focusing on the most effective ways to spend TAG funds. Butte area is a very large and complex site.
- . Increasing public involvement.
- . Updating Technical Advisor roles.

MATERIALS PRODUCED THIS PERIOD:

- . Greeley neighborhood letter to EPA. Request to Designate the Greeley Neighborhood as a Separate East Side Soils Operable Unit of the BA/SBC NPL Site. October 2018.
- . Announcement for public health monitoring meeting #2. October 30, 2018.
- . Summary Health Study Public Meeting Comments. October 30, 2018.
- . Summary of all reports received by the CTEC office from 2010 through December 31, 2018.
- . Summary of media on Butte Superfund remediation/restoration. 2015-2018.

ACTIVITIES ANTICIPATED IN NEXT QUARTER:

- . Focus on Dioxin issues use of the Mt Pole site.
- . Focus on technical Assistance on Dioxin cleanup.

- . Focus on remaining funding vs cleanup still left
- . future use of the Mt Pole site.
- . Provide support to Dave Bowers and Karen Ogden, MDEQ Project and communications Officers for Mt Pole superfund site.
- . Focus on outreach strategy.
- . Focus on new outreach material.
- . Continue to gain Feedback from the community on Superfund questions concerns.
- . Focus on technical assistance.
- . Provide technical support on the NIH/INBRE Grant – Bridging the Gap. Health Perceptions and Superfund.
- . Focus on partnering with other local entities.
- . Provide support to EPA Community Involvement Coordinator for Butte Area Superfund sites.
- . Provide support to EPA Remedial Project Managers for Butte Area Superfund sites.
- . Focus on technical support and outreach for phase II of the Butte health study.
- . Work on strategic plan (a working document).
- . Work on Scope of Work plan (a working document).
- . Focus on storm water issues and outreach.
- . Focus on surface water issues and outreach.
- . Focus on ground water issues and outreach.
- . Continue working on identifying priorities.
- . CTEC representative for the Restore Our Creek Coalition.
- . CTEC representative on the waterfowl committee focusing on geese safety at the Butte Mine Flooding Operable Unit - Berkeley Pit.
- . CTEC representative for the Butte Natural Resource Damage Program.
- . CTEC representative for Citizens for Labor and Environmental Justice.
- . CTEC representative for the Pitwatch Program.
- . Provide public outreach for the Residential Soils Program.
- . Provide technical support to neighborhood groups.
- . Provide technical support to the Butte Natural Resource Damage Council.
- . Provide technical support to B-SB Superfund Advisory Board - Redevelopment Trust Fund.
- . Provide technical support to Clark Fork Watershed Education Program.
- . Provide technical support to Butte Citizens for Labor and Environmental Justice.
- . Provide technical support to Pit Watch.
- . Provide technical support to the Science Mine.
- . Provide technical support to Project Green.
- . Provide technical support to the Imagine Butte Resource Center.
- . Provide technical support to the MT Tech Remediation/Restoration Seminar Series.
- . Provide technical support to the MT Tech Biology/Chemistry research Departments.
- . Provide technical support to the Native Plant Program at Mt Tech.
- . Provide technical support to the Butte Radio KBMF 102.5.
- . Provide technical support to the Montana Public Radio.

- . Provide technical support to the Montana Standard newspaper.
- . Provide technical support to the local news stations.

DOCUMENTS RECEIVED THIS PERIOD at the - CTEC OFFICE

October-December 2018

- . Unilateral Administrative Order Monthly Report of Activities – **Atlantic Richfield Co**
 - September 2018 (electronic)
 - October 2018 (electronic)
 - November 2018 (electronic)

Superfund 101: Mark Mariano and the Berkeley Pit Bird Mitigation Program

Mark Mariano walks the rim of the Berkeley Pit at dawn and dusk at least five days a week looking for birds. After several thousand snow geese landed on the toxic waters in November of 2016, Montana Resources and Atlantic Richfield had to reevaluate the way they worked to keep birds out of the acidic and metal laden waters. In this interview Mark talks about what they have learned so far and the programs in place to avoid future disaster.

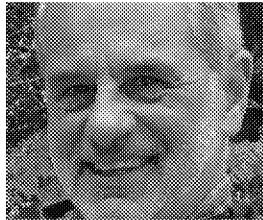

Federal Shutdown May Have Far Reaching Implications for Superfund

As the EPA moves to keeping only about 800 “necessary” staff on duty due to the federal shutdown, Dave Hutchins looks at how Superfund operations in the region will be affected.

Superfund 101 with David McCumber

David McCumber is the editor of the Montana Standard and has a long relationship with Superfund, starting with the Libby asbestos story. In this interview David talks about how he approaches the subject in Butte and what makes him take stands for or against certain measures in the cleanup.

Superfund 101 with Dan Strizic

Interim District 2 Commissioner Dan Strizic joins Superfund 101 to give his take on the presentation to the BSB Council last Wednesday by Jon Sesso. Strizic initiated the presentation with a communication asking for more clarification on Consent Decree negotiations and what the Council will need to be prepared for when it ends up at their door.

Superfund 101: Katie Hailer's Presentation Before the Butte Council of Commissioners

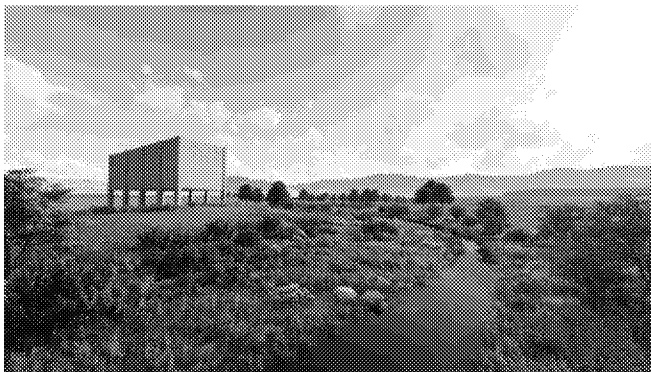

At last week's meeting, the Greeley Neighborhood Community Development Corporation Habitability and Mining Impact Task Force gave a presentation to the Butte Silver Bow Council of Commissioners on why they believe the neighborhood qualifies as a possible new operable unit under Superfund. Some of the main evidence for this claim comes from Montana Tech's Dr. Katie Hailer. In this episode we look at the research she has done on air

monitoring south of the current mining operations in Butte and the effects it may have on the population.

Superfund 101 with Sister Mary Jo MacDonald

Longtime activist Sister Mary Jo MacDonald talks about her dealings with Superfund, lawsuits and her desire to see a flowing creek in the middle of town.

Superfund 101: Landscape Design in the Silver Bow Creek Corridor with Stacey Robinson

Stacey Robinson of Land Design Inc, a Billings landscape architecture firm contracted to draft the plan for Butte Area One, talks about the challenges and opportunities of the historic Silver Bow Creek Corridor and what was gleaned from the community for the project.

Superfund 101: Suzanne McDermott

Suzanne McDermott is the author of a new paper entitled "Population-Based Mortality Suggests Remediation is Modestly Effective in Two Montana Superfund Counties." Suzanne spoke about her findings at Montana Tech recently and this episode of Superfund 101 is an overview of her presentation.
